PROFESSIONAL SUMMARY

Senior Front-End Developer & UI/UX Designer with 12+ years of experience designing and developing responsive websites, e-commerce platforms, and web applications. Strong expertise in UI/UX design, including user flows, wireframes, prototypes, and usability-driven interfaces, along with modern front-end development using React, Redux Toolkit, TanStack Query, Next.js, and contemporary UI frameworks.

Extensive experience delivering WordPress, Shopify, Magento, and Amazon/eBay storefronts, along with building scalable React-based applications. Hands-on experience with full-stack development, including backend integration using PostgreSQL, Prisma ORM, and Dockerized environments, enabling smooth collaboration across frontend and backend layers. Proven ability in client engagement, team leadership, performance optimization, and leveraging AI tools (GPT, Claude, Amazon Q, Factory AI etc.) to accelerate design-to-development workflows and improve delivery efficiency.

WORK EXPERIENCE

1. ESELLER TECHNOLOGIES PVT. LTD.

Senior Front-End Developer / Lead UI-UX Designer

Technopark, Trivandrum, Kerala, India

Work Description:

April 2014 to Present | Full-time

- Lead end-to-end UI/UX design and front-end development for e-commerce platforms, business websites, and web applications.
- Collaborate directly with clients and stakeholders to gather requirements, define user flows, and create wireframes and interactive prototypes using Figma, Photoshop, and Illustrator.
- Design and build scalable React applications with modern architecture, leveraging Redux Toolkit, TanStack Query, OpenAPI, and component-based development.
- Deliver robust WordPress, Shopify, and Magento solutions, including custom theme and plugin development using CPT and ACF.
- Design and implement Amazon A+ / Storefront content and eBay listing templates, ensuring brand consistency and high conversion focus.

EDUCATION

Graduation:
B.Sc. Electronics - Kerala
University

PERSONAL

DOB: 11/05/1986
Nationality: Indian
Languages: English, Malayalam
Hindi, Tamil

- Implement SEO best practices, analytics (GA, GTM), and performance optimization using GTMetrix and PageSpeed Insights.
- Mentor junior developers, review code and designs, and collaborate closely with backend teams to ensure smooth integration and high-quality delivery.

2. TRIVAND TECHNOLOGIES PVT. LTD.

Senior Front-End Developer

Technopark, Trivandrum, Kerala, India

Work Description: Jan 2010 to Mar 2014 | Full-time

- Developed custom WordPress themes and HTML/CSS landing pages with responsive, cross-browser designs.
- Created email templates for marketing campaigns aligned with brand standards.
- Handled maintenance, enhancements, and troubleshooting of existing projects.
- Collaborated with clients and teams on project updates and technical discussions.
- Led the design and full development of Trivand’s official website (www.trivand.com)

3. ANANTIX LIFE SCIENCES (P) LTD (BIOWORLD)

Web Designer

EastFort, Trivandrum, Kerala, India

Work Description: Jan 2009 to Dec 2009 | Full-time

- I designed and maintained company websites, created marketing collaterals (logos, newsletters, brochures, banners, HTML emails, etc.), and developed HTML prototypes and mockups for new products. I ensured design consistency and quality across projects while collaborating closely with programmers to align creative output with technical requirements.
